### The story behind RBC

RBC perceives design as an expression to communicate the story behind our uniquely handcrafted approach to transform humble stoneware clay into novelty tableware. Our philosophy is that all of our ceramics have to reflect true passion for design and to be different. We have been working with some of the best Michelin starred chefs and top hotels from around the world for the past 29 years.

We understand that chefs want to have something different for presenting their creations and to keep exploring their creativity beyond the boundaries of normative food presentation. This idea of bringing the food industry to the next level is boldly underlined in our new collection that we have designed.

### The story behind Kevala

Kevala produces handmade ceramic stoneware. Each piece is crafted as a thoughtful statement of contemporary design, realized through the heart and hands of their skilled artisans. Kevala is Sanskrit, meaning perfect, whole, and complete. And it's this simple idea that dictates the design philosophy behind all the ceramics this studio produces. Kevala designs specifically for high-end restaurants and the individual pieces can be tailored to meet specific presentation needs.

Kevala allows chefs to bring their creativity to the way they serve their delicious culinary creations.

Wendy: 'We have been making handcrafted ceramics for some of the world's top restaurants for the past 25 years. We understand that chefs want understated designs that showcase their culinary creations - where the food is the star, not the serving plate.'

#### WARNING!

The plates have a volcanic glaze. Piling, bumping or hard pressure of objects can possibly result in the release of volcanic glaze flakes. Always check before use whether the plates are free of flakes. Due to possible health risks, these flakes are not fit for human consumption. Volcanic glazing is purely decorative and is not meant to be eaten from or to cut on its surface. Do not serve meals on the surface on which the volcanic glazing is. Washing and cleaning of these plates should ideally be done in an industrial dish washing machine.

## STAND-ALONE PIECES

AbraCadabra is marked by a willingness to experiment and not follow the traditional norms of every collection being a separate and complete set. As with nature, we find Oasis in the middle of a vast Desert or greenery amongst the snow or even water next to volcanos so in keeping with the natural order there is truly one collection and that is the abracadabra Collection where the order in chaos is celebrated and it is in the eye of the beholder and the beholder is you...

Even though we split this catalog into sections and collections there are items we believe either stand on their own or resemble certain aspects of a collection while taking inspiration from something else so this section of the catalog is what some may call accessories however we think that these pieces R creations that allow you to make your table or your home truly your own, Whether these pieces are used to mix and match, to use alone, or to add a little touch of you to the mix we respect and encourage that next step when selecting your pieces to make it a reflection of your self or your creativity and ideas.

# BRÛLÉE 2.0

The Brûlée Collection is a collection that captures the transformative power of fire. From the intense heat of a volcano to the delicate touch of a pastry chef's torch, fire has the ability to change the very nature of the materials it touches. The Brûlée Collection takes inspiration from this phenomenon, creating a line of stoneware that is both striking and unique. The pieces are then treated with a special process that simulates the effect of fire, resulting in a browning around the ridges that mimics the darkened singe left by a flame. The end result is a stoneware collection that is truly one of a kind, perfect for those with an appreciation for the transformative power of fire.

# STAND-ALONE PIECES

AbraCadabra is marked by a willingness to experiment and not follow the traditional norms of every collection being a separate and complete set. As with nature, we find Oasis in the middle of a vast Desert or greenery amongst the snow or even water next to volcanos so in keeping with the natural order there is truly one collection and that is the AbraCadabra Collection where the order in chaos is celebrated and it is in the eye of the beholder and the beholder is you...

Even though we split this catalog into sections and collections there are items we believe either stand on their own or resemble certain aspects of a collection while taking inspiration from something else so this section of the catalog is what some may call accessories however we think that these pieces R creations that allow you to make your table or your home truly your own, Whether these pieces are used to mix and match, to use alone, or to add a little touch of you to the mix we respect and encourage that next step when selecting your pieces to make it a reflection of your self or your creativity and ideas.
